CAREER OBJECTIVE

Full Stack .NET Developer with 3+ years of experience building enterprise web applications using ASP.NET Core, SQL Server, Angular, EF Core, and Dapper. Experienced in REST API development, system design, database optimization, and production support. Passionate about developing scalable, maintainable, and high-performance software solutions.

SKILLS

- **Programming Languages:** C#, JavaScript, TypeScript, SQL.
- **Backend Development:** ASP.NET Core / .NET Core, RESTful APIs, Entity Framework Core, Dapper, ADO.NET, LINQ, SignalR, ASP.NET MVC, ASP.NET Web Forms.
- **Frontend Development:** Angular 15+, Angular Material, HTML5, CSS3, Bootstrap 5, jQuery.
- **Databases:** Microsoft SQL Server, PostgreSQL, Oracle (basic).
- **Architecture & Concepts:** Clean Architecture, Layered Architecture, System Design, Database Design & Normalization, API Design, Query Optimization, Agile/Scrum.
- **Dev Tools & Version Control:** Git, GitHub, Visual Studio, VS Code, Postman, SSMS, Docker, CI/CD (basic).
- **Reporting & Documentation:** Crystal Reports, RDLC Reports, LaTeX (Overleaf).

PROFESSIONAL EXPERIENCE

United Corporate Advisory Service Ltd.

July 2023 - Present

Software Engineer

Kakrail, Bijoy Nagar

- Built and maintained an Inventory and Sales ERP system using ASP.NET Core 8, EF Core, Dapper, JWT authentication, and SQL Server.
- Developed core business modules including stock management, LC (Letter of Credit) processing, invoicing, and customer management.
- Designed optimized database schemas and complex SQL queries to ensure high performance and data integrity.
- Implemented reporting features and real-time AJAX-based updates for improved user experience.
- Designed and developed scalable multi-user architecture with secure role-based access control.
- Collaborated with stakeholders to gather requirements, analyze business processes, and deliver solutions in Agile environment.
- Optimized SQL queries and application logic, improving performance by approximately 30%.
- Provided production support, resolved critical issues, and ensured system stability after deployment.
- Mentored an intern developer through code reviews and best practice guidance.

SmartSoft Technology

October 2022 – June 2023

Software Developer Intern

Pallabi, Mirpur, Dhaka

- Contributed to the development and maintenance of web applications using ASP.NET Web Forms.
- Implemented responsive UI components using HTML5, CSS3, and Bootstrap 5 to improve usability across devices.
- Designed and managed SQL Server databases including tables, stored procedures, and optimized CRUD queries.
- Developed and customized Crystal Reports for generating business and operational reports.
- Assisted in debugging and enhancing existing modules to improve system stability and performance.

ACADEMIC & PERSONAL PROJECTS

Broker House Client Website & Admin Dashboard | ASP.NET Core MVC 6, EF Core, Dapper, MSSQL, SignalR, AJAX, RDLC

- Developed a dynamic client management system with a fully configurable admin dashboard where all website content is managed from the backend.
- Implemented real-time updates using SignalR to instantly reflect client registrations and system changes in the admin panel.
- Designed and optimized complex SQL queries, stored procedures, triggers, and transaction handling for data consistency.
- Integrated AJAX-based dynamic content loading to improve performance and reduce page reloads.
- Built automated notification system using SMS and email APIs for client registration approval workflow.

Dealer House Inventory ERP System | ASP.NET Core 8, EF Core, Dapper, JWT, MSSQL, AJAX, Reporting

- Built a full-scale ERP system for inventory and sales management including stock, LC opening, invoicing, and customer modules.
- Implemented secure JWT-based authentication with role-based access control for multi-user operations.
- Designed optimized database architecture using EF Core and Dapper for high-performance data access.
- Developed real-time AJAX features for seamless user interaction without page reloads.
- Created dynamic reporting modules for sales, inventory, and financial analytics.

Product Card API & Razor UI | ASP.NET Core Web API, Razor Pages, EF Core, MSSQL

- Developed a RESTful API and Razor Pages UI for product management and sales operations.
- Implemented Repository and Unit of Work patterns to ensure clean and maintainable architecture.
- Built features including product filtering, pagination, and date-based discount logic.
- Integrated API with frontend for seamless full-stack functionality.

EDUCATION

University of Information Technology & Science

Bachelor of Science in Computer Science (GPA: 3.13 / 4.00)

April 2021

Dhaka, Bangladesh

- Majored in Software Engineering

LANGUAGE

- Bangla – Native.
- English – Professional Working Proficiency.
